

A DECISION-AID PLATFORM FOR AUSTRALIAN BUYERS

Japanoma

MVP Handover Report

Built by Craefto for Go&C Partners · 2026-05-07

In one sentence

Help Australian ski-lovers decide whether — and where — to buy a home base in Northern Japan, with **transparent total-cost models, practical due diligence, and introductions** to licensed local professionals.

“Own a Japan ski home base with clarity — not guesswork.”

WCAG 2.1 AA	In progress · <code>inert</code> mobile menu, focus traps, aria-live announcements

What's deferred

NOT BLOCKING HANDOVER

- **Legal counsel review** of `/privacy` + `/terms` wording → lift the on-page banner
- **DNS** — point `japanoma.com.au` at Vercel
- **Resend domain verification** — DKIM, SPF, DMARC records
- **Sentry / Plausible env keys** — set when those services are provisioned
- **Re-acknowledgment middleware** — gate next signin on stale policy version

Two deployments

URL	STATE
https://japanoma.vercel.app	Original Craefto deploy · full site live
https://japanoma-japanoma-2058s-projects.vercel.app	Handover deploy · pre-launch coming-soon gate

Reviewer bypass on the handover: `?preview=<PREVIEW_KEY>` sets a 30-day cookie. Lift gate by removing or changing `LAUNCH_MODE` env var — no rebuild needed.

What's in the handover package
